

# TROY-BILT® Roto Tiller-Power Composter

## OWNER ORDER FORM

### for Tillers and Attachments

**4½ HORSE POWER RECOIL STARTING**  
(Cast Iron Clinton Engine)

The basic HORSE Model Troy-Bilt for light or medium duty use. Equipped with Bolo Tines and diamond tread tires. Please see next page for details of other tines and tires. 260 lbs.

**6 HORSE POWER RECOIL STARTING**  
(Cast Iron Tecumseh-Lauson Engine)

By far the most popular Troy-Bilt HORSE Model. Heavy Duty Engine, Bolo Tines, and diamond tread tires all standard. 268 lbs.

**6 HORSE POWER ELECTRIC STARTING**  
(Cast Iron Tecumseh-Lauson Engine)

Equipped with starter motor and 12 Volt battery (30 amperes, 54 plates). Battery automatically recharges while you till. Starts easily in cold weather; can also be started by hand. All tiller and engine controls are at the operator position — a real convenience for many folks. Except for the electric start option, it's the same as the 6 Horsepower Model at right above. 294 lbs.

**7 HORSE POWER KOHLER RECOIL STARTING Professional Model**

(Cast Iron Kohler Engine)

The Tiller many Troy-Bilt Owners eventually "move up to." The same as the 6 Horsepower Recoil Model above, except that it includes — as standard equipment — bar tread tires and a 7 Horsepower Kohler K161 engine rated for industrial use. The Kohler engine uses a larger piston with a short stroke which gives it "tractor lugging power" for long duration tilling in even the toughest soil conditions. 286 lbs.

See inside for details . . .

## BOLO TINES

These are truly the all purpose Tines and are the type furnished on all new Troy-Bilts as standard equipment. For tilling in sod, weeds, cover crops, composted materials as well as for seedbed preparation, tilling and cultivating.

**ITEM NO.**

- |  |                |
|--|----------------|
|  | complete set   |
| <b>(01)</b> 16 tines and holders . . . . . | <b>\$65.00</b> |
| <b>(03)</b> Set of 16 tines only . . . . . | <b>\$42.00</b> |

## POINTED PICK TINES

Best choice of tines for especially tough, rocky, heavy clay, gumbo, or hardpan soils and for deeper tilling. Tend to bale up in tall or thick grass, weeds and other organic matter.

**ITEM NO.**

- |  |                |
|--|----------------|
|  | complete set   |
| <b>(05)</b> 12 tines and holders . . . . . | <b>\$65.00</b> |
| <b>(07)</b> Set of 12 tines only . . . . . | <b>\$32.00</b> |

## CULTIVATING TINES

These specialized tines are best for shallow cultivation (1"-2"), to avoid damage to the roots of plants. They will till as deep as 5 inches and disturb less soil than will Bolo Tines. They are an ideal choice wherever you wish to cultivate between rows near shallow-rooted crops, and for berries, vineyards, orchards and shrub or tree nurseries. In fact, many professional growers prefer these tines for cultivating.

**ITEM NO.**

- |  |                |
|--|----------------|
|  | complete set   |
| <b>(09)</b> 12 tines and holders . . . . . | <b>\$65.00</b> |
| <b>(11)</b> Set of 12 tines only . . . . . | <b>\$32.00</b> |

16" HIGH  
32" WIDE  
weighs  
55 lbs.  
with  
bracket

## DOZER/SNOW BLADE

This versatile "homestead helper" takes most of the heavy work out of light snow plowing and earth moving. Won't handle a foot of wet snow as well as a several hundred dollar snow throwing machine, but for the price, this Dozer/Snow Blade attachment for the TROY-BILT is a very worthwhile investment. Can also be used as a grader, within reason.

**ITEM NO.**

- |  |                            |
|--|----------------------------|
| <b>(15)</b> Dozer/Snow Blade . . . . .               | <b>\$70.00</b>             |
| and Instant On-Off Attach-<br>ment Bracket . . . . . | <b>\$29.00</b>             |
|  | <b>\$99.00</b><br>complete |

**IMPORTANT** —To fill your order for Troy-Bilt attachments, we must have the Serial Number that's on your Tiller. (NOT the engine number, please!)

**LOOK HERE** On the top edge of the "Horse" Transmission Case, right side, above wheel axle.

BrentChalmers.com

## HILLER/FURROWER

The Hiller/Furrower will help you do many gardening chores. Besides hilling corn, potatoes and other vegetables so quickly and easily, the Hiller/Furrower helps to kill weeds in rows and between plants as it hills. Helps you grow better crops in wet or heavy soils by making "raised rows." Hiller wings attach and adjust for row width and hill height by hand—no tools needed! Remove Hiller wings and use Furrower alone to dig trenches for irrigation, drainage or trench composting (burying organic matter and kitchen leftovers for improving soil). Makes furrows to plant potatoes, corn, melons, asparagus, strawberries, etc. Furrows to 8" deep, hills to 8" high.

### ITEM NO.

- (19) Instant On-Off Hiller Furrower complete . . . . . \$36.00
- (13) Furrower only . . . . . \$26.00
- (20) Hiller wings only (must be used with Furrower). . . . . \$ 13.00

## BAR TREAD TIRES AND RIMS

Specially helpful when extra traction is needed in loose, light, and sandy soils. Good for use with Dozer Blade, too. You can have your Tiller equipped with these bar tread tubeless tires and rims (which most farm tractors also have). Size 4:80 x 8.

### ITEM NO.

- (14) Heavy Duty Bar Tread Tires and Rims (in place of diamond tread tires and rims on a new Tiller) . . . . . \$25.00

If ordered separately (without Tiller) . . . \$85.00  
(Standard equipment on 7 HP Kohler models)

## CHAINS

These are wonderful if working in wet or slippery soil conditions (in extremely light soils also, where Tiller has tendency to sink in and bury itself), or with Dozer/Snow Blade in snow removal (in slippery conditions of ice, snow, etc.) or in mud. These chains fit diamond and bar tread tires.

### ITEM NO.

- (18) 4:80 x 8 to fit deep traction grip, diamond tread tires or Bar Tread tires . . . . . \$30.00  
set (2 chains)

## After completing order on page 4, please check to be sure you have included the following information:

- A. Your full name, complete mailing address, zip code, county, and telephone number.
- B. Serial number of your Troy-Bilt (when ordering attachments only).
- C. *Quantity* and *price* of each item ordered.
- D. Have you enclosed *full* payment in advance, or indicated that you will complete payment before shipment or will accept your order C.O.D. (Cash on Delivery), or filled in completely your Master Charge or BankAmericard number?
- E. A 20% deposit must accompany your order.
- F. To insure that the actual Owner of the new Troy-Bilt receives his No-Time-Limit Guarantee on that Tiller and full warranty allowance on the engine, please be sure that you completely fill out the bottom coupon of the order form.
- G. To help speed your order, please print plainly. Thank You.

### Attention—TROY-BILT Owners

If you are interested in a way to help others, and to help yourself at the same time to extra good earnings, please read this important appeal we are making now for hundreds of thousands more Neighborhood Growers! Then please let us know if you would be interested in being a Neighborhood Grower in your neighborhood. We'll send you everything you'll need to get started right away!

## Hundreds of thousands more Neighborhood Growers are needed...

to fill the ever increasing demand for fresh, healthful, good tasting, home grown fruits and vegetables in this country of ours where food costs keep going up, and quality keeps going down!

A Neighborhood Grower grows a garden not only for his own home use, but also to help supply his neighbors...at great benefit to them and at a good profit to himself.

He uses no harmful chemicals for pest control or for any other purpose in ways damaging to humans or to the environment.

He makes sure to have enough organic matter in his soil at all times so that he is constantly improving his soil...not only for his own immediate garden productivity, but for future generations of gardeners, as well.

Your being a Neighborhood Grower can help enormously to reduce the ill-effects of large scale commercial farming and long distance hauling of foods which have, these past years, contributed greatly to severely damaging our environment.

Your being a Neighborhood Grower can help *do away* with the waste of human and natural resources, soil erosion, the oceans of poisonous chemicals, the suffering of countless thousands of migrant farm workers, the mountains of cans, bottles, boxes, which become a trash disposal nightmare, the giant trucks with all their noise, dirt, air pollution, highway death and expense, and the billions of miles consumers drive back and forth to food markets.

There are already hundreds of thousands of Neighborhood Growers growing more healthful, better tasting, lower cost food for themselves and their neighbors in this country at very good earnings to themselves. But hundreds of thousands more are urgently needed... and we here at Garden Way are proud to be helping by building the Troy-Bilt® Roto Tiller-Power Composter. This amazing Two-Machines-In-One makes gardening on any scale so much easier, so much more practical and profitable... however large or small your garden.

Since you already have a Troy-Bilt Roto Tiller, which does so *much* more work so *easily*, you already have a wonderful headstart toward being in the Neighborhood Grower business. This is such a dignified, practical way to help others, the environment, and to make excellent profits and a "paying hobby" of gardening, for anyone with the time, the place and the inclination.

For the whole wonderful story of neighborhood growing, including the booklet entitled "How to get started as the Neighborhood Grower in your neighborhood," please write to us and we'll rush your *free* booklet and all the details right out to you by return mail.

Who knows, this may not only be the start of a wonderful new way to help others, and help your Troy-Bilt pay for itself, plus lots more in profits...but a whole new way of life for you and your family from *now on*.

We hope you will send in your reply right away! Thank you very much.

**TILLER OR DOZER/SNOW BLADE SHIPMENT WILL BE MADE BY MOTOR FREIGHT COLLECT—**  
Special instructions (if any would be helpful) so trucker can find without delay:

BrentChalmers.com

# Order Form Provisions for Troy-Bilt Owners

## Some special advice about ordering...

When you Order Troy-Bilt Tillers, shipment will be made to you Motor Freight collect. A fee of \$15.00 should be added to your order to cover cost of the Tiller Protective Shipping Container. Any attachments ordered with a TROY-BILT will be shipped inside the Tiller Protective Container. However, Dozer/Snow Blade Assemblies are too large and must be shipped in a separate container along with your Tiller order. Therefore, total delivery costs for Tiller and Dozer/Snow Blade Assembly orders will be a little more than if the Tiller were shipped by itself.

**Special Note Regarding Shipments Made by Motor Freight . . .** Many truckers charge an extra \$10 to \$15 in addition to the normal freight charge, on heavy items delivered to your home. You may avoid this charge by picking up your Tiller or Dozer/Snow Blade Assembly order at the trucker's terminal, or by arranging to have them shipped to a business address in your neighborhood (such as your local gas station, feed store, hardware, grocery, etc.). Remember, to avoid any possible "home delivery" charges, please include that address, other than your own, on order form in space provided.

If You Order Attachments Separately, they will be sent via Parcel Post or U.P.S. and we will pay all shipping and handling costs (except for the Dozer/Snow Blade Assembly).

**Method of Payment . . .** Cash in Advance or C.O.D. (cash on delivery) or you may charge to your Master Charge or BankAmericard account. Be sure to take your special owner's off-season savings (see above right). You can make payment by personal or cashier's check, or by express or postal money order, to: GARDEN WAY MFG. CO., INC. If you do not wish to make full payment in advance, your shipment will be sent C.O.D. for the balance, and an additional C.O.D. cost will be added.

**When Returning Goods To Us . . .** Shipping charges must be prepaid by you. Please tag return items with your name, address and zip code; include a letter of instruction.

Thank you very much for putting your faith in our TROY-BILT® Roto Tillers and attachments. We hope you will always be fully pleased and satisfied. If you ever have any questions or comments, by all means let us know. See above right for full Guarantee and Tiller rebuilding details.

DON'T FORGET . . . because you are already a TROY-BILT Owner and our good friend in gardening, you are entitled to buy as many TROY-BILT® Roto Tiller-Power Composters and attachments as you may want, direct from the factory at your special owners savings. These savings (shown in blue) are 5% better than those available to the general public (shown in black) for Tillers shipped during each of the off-seasons shown below.

January	<del>10%</del>	April	<del>0%</del>	July	<del>20%</del>	October	<del>15%</del>
February	15%	May	5%	August	25%	November	20%
March	<del>10%</del>	June	<del>0%</del>	September	<del>20%</del>	December	<del>15%</del>

*Special Owners discounts shown in blue.*

### NO-TIME-LIMIT GUARANTEE

Your TROY-BILT® Roto Tiller-Power Composter and all attachments will be carefully inspected and tested at the factory. WE GUARANTEE TO REPLACE any part which is defective in material or workmanship, allowing for reasonable wear and tear — except for the engine which is warranted by the manufacturer for one year.

If you are not entirely pleased and satisfied with your TROY-BILT® Roto Tiller-Power Composter, you may notify us anytime within 30 days after you first use it in your garden and return it for full refund less shipping costs.

If you purchase your TROY-BILT® Roto Tiller-Power Composter from one of our dealers, instead of direct from us at the factory, and you are then dissatisfied with it for any reason, please get in touch with the dealer immediately. He will see to it that you get complete satisfaction. If not, please write or phone us and we will see that you get complete satisfaction.

If you purchase direct from us here at the factory, please write or phone us if you have any problems. If the fault is ours, allowing for reasonable wear and tear, we will make good even if it means sending you a completely new machine or having you return machine, parts or attachments for exchange, repair or full refund of purchase price (except for shipping costs), whichever you prefer.

### HALF-PRICE FACTORY REBUILDING AGREEMENT

At any time, no matter how new or old your Troy-Bilt Roto Tiller-Power Composter may be, we will rebuild and repaint it, replacing every worn part (such as bearings, gears, seals, tines, belts and including a brand new engine) for one-half the current retail price at the time of repair of that model or its equivalent (if that exact model has been changed); owner to pay shipping and container costs to and from Factory. If any other than wearing parts need replacement, an estimate will be submitted to owner for approval. This offer, of course, is subject to fire, war, strikes, and other contingencies beyond our control.

The whole sense and purpose of our Direct-From-The-Factory Off-Season Savings Plan, our No-Time-Limit Guarantee and half-price Factory Rebuilding Agreement are to provide owners of TROY-BILT Roto Tiller-Power Composters an outstanding value both as to purchase price and maintenance cost of Rotary Tillers and attachments especially designed and built for their purposes—in return for their cooperation in placing their orders during off-season months and in spreading the good word about Troy-Bilt to other serious gardeners—to our great and genuine mutual benefits.

Yours for good faith and fairness in all matters,

*Dean Leith, Jr.*

Dean Leith, Jr., Sales Manager
